

to whom it may concern:

currently we listen to our k-love christian radio station any time (day or night).. please do not interfere with this wonderful way for me and my family to feel closer to God. if the government imposes on this by offering LPFM stations, it may endanger the chances that we have and choose to have when listening to great christian music. k-love provides a safe and wonderful opporutnity for us in our community to listen to music that enhances our faith and our moral beliefs. thank you so much for not enforcing the LPFM stations in any area....
